

VOLUNTEERS

Volunteers are an important part of the work we do at Cataraqui Cemetery. Without the valuable assistance from volunteers, the Cemetery struggles to achieve its goals and maintain the day to day operations. In many instances, a staff member must either train or direct the volunteers and organize the projects. However, as an active cemetery, we are required to meet our daily interment obligations. For this reason, some volunteer projects become delayed or deferred often leaving the impression that the Cemetery does not value the contributions of the volunteers. Please be assured that this is not the case. The Cataraqui Cemetery is working to create an improved system so that, together with volunteers, we can achieve our goals. With many possible Cemetery projects, it is important to understand the skills of each volunteer and the types of projects they would find most interesting. Please complete the following form with as much information as possible so that we may contact you if any upcoming projects match your strengths, skills, interests and availability.
